Dear Brian ,

I opened your fed exp package regarding patent application 09/689,621. First , my name is Bobby Gene Edwards. I live at 19448 FM 2115, Salado, TX. 76571. Concerning our last phone conversation , I stated that I required Dr. Van Kampen to call me before I would proceed with this. As yet no call. Either you did not inform him or he lost my phone number. I understand the ergency of this application. I do not want to stand in the way; however I do want to be indemnified by Dr. Van Kampen against this application's use in the present law suit by NeoGen against Dr. Van Kampen , myself et. al. and against any future lawsuit concerning P. acnes in humans. The lab work was done at the now , NeoGen site(formally ImmunoVet). I have also not heard mention of any financial incentive for my time and effort toward this application. On page six line 11 of the patent it states "by standard cell culture methods." "cell" should be deleted.

I look forward to your prompt reply.

Respectfully,

B. Edwards
